Sub – Letter of Appreciation – Internship with PALS for Portal development

Dear Mr. Vishnuvasan,

I am writing this letter on behalf of PALS to thank you and appreciate your work in the PALS Portal development using Retool, a low code no code platform that enables to quickly build and deploy internal application. You joined us for the development work from 1st April 2022 and have worked with us for a period of 2.5 months.

PALS was ambitious of automating its functions and various interaction with its stakeholders through the PALS Portal. A separate team with PALS member, technical assistance from M/s. Paripoorna Systems Ltd and Student interns was formed to develop the portal. Agile development model was adopted, and student interns were required to share their progress every day. You developed few key functionalities of the application. You were very responsible, hard-working, and dependable. You have turned in good quality work. Your proactive communication also helped the team in multiple ways. We at PALS appreciate the efforts that you have put in.

Keep up the good work.

Warm Regards

P. V. Mohan
Chairperson, PALS
