Betreff: Query Regarding the Enrollment Process for the Summer 2025 Intake Master Program
(Initial Registration Number: 100000260518)

Dear Team,

I hope this message finds you well. My name is Vishnuvasan Thadan Srinivasan, and I am delighted to have been admitted to the Master's program in Artificial Intelligence and Data Science at Saarland University for the Summer 2025 intake.

Following the provided instructions, I have initiated both my visa and enrollment processes. However, I noticed in the SIM Portal (Enrollment Portal) that the due amount/fee payment section displays a balance of €0.

I would like to confirm whether it is mandatory for me to pay the enrollment fee of €361.90 to complete the process at this stage or if it can be paid later. To assist in resolving this query, I have attached a screenshot of the portal showing the fee status as €0.

Your guidance on this matter would be greatly appreciated.

Best regards,
Vishnuvasan Thadan Srinivasan
